Objective

An enthusiastic, hard-working, and team-oriented individual finished my 3rd year as a Software Engineering student. Currently looking for a 12–16-month internship to grow critical industry skills and apply the skills from both my Software Engineering education and work experiences to develop, test, and maintain a wide array of software solutions.

Education

Bachelor's in software engineering, University of Calgary,

SEPTEMBER 2018 — PRESENT

Engineering Leadership Program (2 Years)

- Leading multiple groups and discussions, I further developed my strong foundation on **leadership** concepts and ideas

Technical Skills

- Experience with **Object-Oriented programming**
- Experience with **Software Testing**
- Experienced with **Linux** and **Windows** platforms
- Exceptional at **trouble-shooting software and hardware**
- Experience with **Git version control**
- Strong **analytical** and **logical thinking** skills

Employment History

Busser/Bartender at Buon Giorno Ristorante, Calgary

MAY 2017 — NOVEMBER 2020

- I communicated with **130+ customers** per shift to cater to their needs, ensuring a **successful interaction and repeat business**
- As acting **manager** of the busser staff, I trained new busser staff allowing them to work independently within **2 weeks**
- Ensured the restaurant was clean **every hour** as per COVID-19 regulations

Laborer at SOLKOR Landscape Design and Construction, Calgary

JUNE 2020 — AUGUST 2020

- Lead a crew of **4+** to **guide and distribute** work to complete tasks efficiently
- Collaborated in a team environment of **4-8** employees with various **personality types** to ensure and smooth working environment
- Managed the maintenance of **3+** heavy construction machinery ensuring longevity of their operation

Projects

Portfolio Website

- Designed and developed a **mobile and desktop-friendly website** from **scratch** to showcase my previous work and skills as a web programmer

COVID-19 Vaccine Tracking Web App

- Worked with a team to develop a **web API** using **Python**, **Django framework**, **HTML**, and **CSS** to help streamline the vaccination appointment process
- Programmed the **form validation** of the **web API** so that Nurses and Civilians can **securely access** their account information from the **SQLite database**

Soft Skills

- A **fast** and **proactive learner**
- Strong **verbal, written, and presentation** skills
- Flexible with **collaboration**
- **direct** with communication
- Extensive **customer service** and **communication** skills
- Experience working under **deadlines and pressure**
- Able to **work independently**
- Excellent **problem-solving** skills
